TOWN REVENUES

Town revenues come from many sources, the majority of which is Ad Valorem tax. Other sources are taxes received from the State, such as the half-cent sales tax, infrastructure tax and communication services tax. State revenue sharing income is also received, derived by a population-based formula. Imposed fees for permits or fines, rent collected, grants, earned interest, and various sales also provide income. Service based fees are derived from Public Safety training classes and Postal Center sales and box rentals. Revenues are allocated to the General Fund, Roads and Off-Site Drainage Fund, the Indian River Shores Postal Center, or the Planning, Zoning and Building Fund as required by law. The Town's budget is available by request for the public to review.
